Prama Kaisar

📍 Indonesia, ID   ✉ prama.kaisar.tech@gmail.com

🔗 https://github.com/pramakaisar

Learned Japanese (JLPT N1) in 1 year at age 15. Former competitive programmer. Now building AI infrastructure and personalized AGI. Focused on LLM agents, MCP, and scalable systems.

Experience

AI Infrastructure Developer   *January 2025 — Present*

Featherless AI · San Francisco

Building serverless AI inference infrastructure to run any model at any scale without managing GPUs.

- Developing core infrastructure for model serving optimization.
- Latency reduction and throughput maximization for large-scale inference.

AI Engineer   *January 2024 — January 2025*

Wayward Wyverns Softworks · Iowa

Scaled AI products for creatives to 80k+ users. Full-stack development, AI engineering, prompt engineering with custom finetuned LLMs.

- Optimized inference pipelines for creative workflows.
- Implemented custom RAG systems for enterprise-grade AI assistants.
- Successfully transitioned platform through acquisition by Featherless AI.

Founder   *January 2023 — January 2024*

VeniaAI · Kuala Lumpur

Built AI-powered writing tools with RAG workflows and custom Llama 3.1 models for Malaysian market.

- Architected localized LLM solutions for specific linguistic nuances.
- Bootstrapped and managed end-to-end product development.

Skills

AI & Infrastructure: LLMs, Agents, MCP, RAG, Distributed Systems

Web Development: Next.js, React, TypeScript, Node.js

Languages: Japanese (JLPT N1), English, Indonesian

Education

Monash University   *January 2022 — January 2023*

Bachelor's (Incomplete) in Computer Science and Data Science

Labschool Kebayoran   *January 2019 — December 2021*

High School in High School Diploma

Languages

Japanese: JLPT N1

English: Native/Bilingual

Indonesian: Native
